
AutoCAD Free License Key

[Download](#)

AutoCAD Product Key 2020 is available for Windows, macOS, iOS and Android operating systems. In addition to the desktop versions, AutoCAD Cracked Version is also available as a mobile and web app. This feature-rich application is primarily used for civil engineering, architectural drafting, interior design and architecture, among others. AutoCAD Full Crack is extensively used by professionals, students and enthusiasts alike. The new features include the ability to scale line widths, a quick guide to help users work with the CAD features, and several enhancements to the overall user interface.

2.3 Price and availability

AutoCAD 2020 is available for purchase directly from Autodesk, directly from Autodesk online store, and from a variety of resellers. It is available on Windows, macOS, iOS, and Android operating systems. The price of AutoCAD depends on the license type and the features you need. The annual subscription is about \$70, while the perpetual license

costs \$1,400. The basic functionality is \$2,995. Other features include the ability to import objects from applications such as 3ds Max and Inventor, as well as an improved rendering engine. AutoCAD 2018 users may also upgrade to 2020.

2.4 System requirements

AutoCAD requires a dual-core 64-bit or faster processor, 4GB RAM, a hard disk of at least 4GB and an Internet connection. For the 2018 version, the minimum requirements for running AutoCAD 2018 are a 64-bit Intel Core 2 Duo processor with support for SSE4.1 and SSE4.2. AutoCAD 2018 software can run on 64-bit Windows 7, Windows 8 or Windows 8.1 and 64-bit macOS versions.

2.5 Platform requirements

For AutoCAD 2018 the supported systems are as follows:

2.6 Operating systems

AutoCAD can run on macOS 10.8 (Mountain Lion) and newer, and on 64-bit Windows 8.1 and newer. AutoCAD 2018 for Mac can be installed in 64-bit mode on the following systems:

- MacBook Pro (Retina, 13-inch, Late 2013)
- MacBook Pro (Retina, 15-inch, Late 2013)
- MacBook Pro (Retina, 13-inch, Mid 2012)
- MacBook Air (Late 2011)

Add-on tools (also called Plugins) The list of add-ons, or plug-ins, available to the Autodesk Design Review application is extensive and always expanding. Autodesk has maintained a list of Design Review plug-ins and several Autodesk-hosted discussion forums for Design Review developers. Design Review plugins are built by external developers and distributed as free, or paid, downloads on the Autodesk Developer Network (ADN). Plug-ins can be categorized by the type of functionality they add. A few examples include 2D offset (offset layers), vectorization (join, split, snap, etc.), 3D modeling (assembly/re-assembly), CAD database management (data exchange) etc. Free add-ons

Mobile apps Beginning in 2012, Autodesk introduced some new mobile apps for its Autodesk Forge platform. The following app categories were launched: Cloud apps Offline app Web app

Early 2017, Autodesk released Autodesk for Windows 10 and Autodesk for iOS. Autodesk Hub App (formerly Autodesk Mobile app) is a free app that allows users

to access and collaborate on files on mobile devices. Autodesk for Windows 10 is a modern app that is designed for Windows 10 devices and uses a shared workspace for collaboration. Autodesk for iOS is a native app for Apple iOS devices. Former Autodesk App Factory Autodesk Forge is a web-based platform designed to allow users to upload a variety of mobile app templates for building custom-branded mobile apps. Autodesk Forge Apps Autodesk Forge Apps allows users to create custom apps for Android, iOS, Blackberry and Windows OS devices. These apps can be generated from a web-based template designed to integrate into a website. Users can also export the app as a stand-alone app or as a HTML5 app that can be hosted on the Autodesk Forge web service. Companies that have developed apps include: Autodesk Mobile Sync Autodesk Mobile Sync is an Android, iOS, Blackberry and Windows OS mobile app that allows sharing of CAD drawings, including vector and raster drawings. The app allows sharing and collaborative editing of files on mobile devices in real-time and online. The app has been downloaded over 12 million times. Autodesk 360

What's New in the?

Automatic PCB Extraction: Automatically extract and route PCB symbols from your drawings. Use our Trace Selection Wizard or command-line options to use an Autodesk Search & Extract tool, or to create an alternative schematic symbol to your PCB symbols. (video: 1:30 min.) **Editor Enhancements:** Keep track of the most recent layers used for editing, and make sure that you don't edit the same layer more than once. (video: 1:33 min.) **New Device and Framework Manager Tools:** View and change the configurations for the network devices on your system. (video: 1:40 min.) **New Device Framework**

Tools: Use the Framework to control the functionality of devices on your system, without having to manually manage the components. (video: 1:43 min.) Autodesk Subscription API: Access the data and results of Autodesk programs and add functionality to your applications. (video: 1:50 min.) Autodesk Advanced Subscription API: Use API-based extensions to deliver functionality to your customers and employees, or to add features to your applications. (video: 1:57 min.) Associative memory: Build powerful applications quickly, using key-value pairs for data storage. Autodesk Subscription API will be available to deliver this functionality to your customers. (video: 2:00 min.) Command-line tools: Use command-line tools to reduce errors and increase the performance of your application, in an AutoCAD system on your desktop or in a cloud-based system. (video: 2:17 min.) Create local client templates for drawing files that match the templates you're working from. (video: 2:42 min.) Batch mode: Make multiple changes at the same time, without waiting for your drawing to be fully saved. (video: 2:56 min.) Geometric primitives: Select, extrude, and

cut along a 3D space. (video: 3:09 min.) CAD
centerline: Draw lines, curves, arcs, and circles at the
center of your drawing, as a guide or waypoint for
your designs. (video: 3:25 min.) Trace Selection
Wizard: Take advantage of an
