EximiousSoft Business Card Designer Crack + Download [Latest 2022]

Business Card Designer is a simple and elegant tool for designing business cards. Create a new card or select a card to edit it. It offers a convenient function for selecting and editing the card. Insert various graphical elements, such as Clipart, Text, Line, Rectangle, Shape, Polyline, etc. A new business card can be created from scratch or by selecting from a wide range of categories (e.g. nature, business, art, culture) and templates, and specifying the size. What's more, you can choose between various clipart, which can be added to the workspace by simply dragging and dropping them onto the desired area, and insert preset objects (e.g. symbols, arrows, animals, cars, children and toys). You can choose a background theme, perform basic editing operations (cut, copy, paste), insert text messages and images (e.g. ICO, TGA, JPG, PCX, BMP, EMF), draw open or closed shapes using Bézier or straight lines, as well as fill the selected shapes and text with a color. Special effects and output formats Other notable characteristics bundled in this tool allow you to apply special effects (shadow, reflection, outer glow, and texture), undo or redo your actions, as well as move the selected objects forward or backward. The program allows you to create a backside of the card, set the background color or upload an image, embed text and photos, add rectangles, insert objects (e.g. rectangles, ovals, polygons, stars, lines, arcs), specify the objects' size, and zoom in or out. The business cards can be printed or exported to PDF, JPG, PNG, BMP, GIF, TIFF, TGA, or PCX file format. During our testing we have noticed that the utility provides excellent image quality, and no errors showed throughout the entire process. Easy way to create your own marketing material, add your logo and create newsletter Template Maker is a new highly advanced and stylish utility that can help you quickly create impressive business, advertising, brochures, calendars, or any other promotional materials.
