Everything else works fine. Just when I tried to write a script last night I got the message this area cannot be written to! I'm assuming, this is due to the way a registry is broken down. It would be nice to fix it though. Hi, There is no actual problem, it's just a little error message. It just means that the directory which is reserved for this type

of program - the pdftops folder, can not be written to anymore. That's all.
