
Sims 3 Masturbation Modl

I read about it on the Sims 3 forums and there were women. since some sims 2 masturbation mods had really awkward animations. I thought I wanted my mod to be sexy and natural. I created a new girl, put her in a room and started creating a sex animation for her. In the end, I just found Sex Animations for Girls and copied them. I don't think I'm really doing anything wrong because I used my old code and only changed some parameters. Eventually I saw that she was really clumsy moving and doing some awkward postures.
