However, I have read very good reviews of the game and it is a sequel to the Assassin's Creed franchise and I am definitely going to try it out. The game is set in the present time, as you can tell because I have used the graphics on this screenshot. The game is set in Venice, Italy and the background is Mediterranean. You take the role of Ratonhnhaké:ton, also known as Haytham from the Assassin's Creed franchise. You are a dedicated assassin from the time of the Knights Templar and most of the quests in the game will focus on this. The game is very similar to Assassin's Creed because you are a main assassin who takes part in most the quests. There is a story mode that can be played in co-op mode or you can just play single player on your own. You basically explore the city of Venice trying to uncover conspiracies, which you can complete using co-op mode. You can find useful information on the history of Venice and the conspiracies by exploring maps and documents. The game is available on the Play Station®4 and Playstation®3 and is a high quality game
