Install Note

- The ME file is "install-me.txt"
- You must always have an existing folder for the ME file, located in "C:/AldamirShadow" and named "ME"

I have prepared a guide on how to install the game. If you can't beat the installation, feel free to use the guide below. Make sure that you have made a backup copy of your game folder before you proceed. If you are also attempting to download the green bubbles patch, then only download if you have modified your game folder to a version that has that patch installed. If you have created a backup copy, which we recommended you do in advance, then you can load it up and continue.

If you have recently installed the game you may need to run it in the "Debug" or "Demo" mode.

All game files need to be opened in your text editor or you can do the following:

Notepad++ "C:/Program Files/AldamirShadow/Assets/Setup" - Select a folder with the setup file into it and click the "open" icon. "C:/Program Files/AldamirShadow/Assets" - Find the ME, the Match_Indoors, and Map_NRGSE files and place them in the same folder as Setup. When you run the game, it will automatically load the correct files for your version and it will work fine.
