The new "HyperMotion Technology" introduces new mechanics to create opportunities, adds speed to the game and optimizes shot mechanics. Players will feel even more active during match day thanks to new on-the-fly, ball-oriented animations, new explosive run animations and new after-touch. New animations drive the game's feel and give players a new opportunity to play in a way they haven't seen before, all while improving the intensity of realistic collisions. The game includes extensive authentic player functionality to perfectly mirror player form and athleticism as accurately as possible, including player attire, player cleats, player hairstyles, player kit, team kits and players' real-world size/shape. Players have real-life sizes, weights and player control. This includes player movement, form changes when on the ball, player reactions to penalties and fouls, and play styles and decision making. One of the features of the game is how real players react when they fall. They will keep their legs together, so you can see exactly what happens to them when they go down.
