Towertale is a side-scrolling hack and slash that focuses on gunplay and melee combat. Towertale features ten well designed boss fights, with four classic platforming levels and six 4-5 player battles to complete. Towertale is set in a fantasy world inspired by Norse mythology. Ten wizards have been corrupted and cast their dark powers in the world. These wizards, the Shadow Lords, are out to end the world. Your mission is to unleash the five Elements in order to stop them. Your powers grow stronger throughout the game, and will help you save the world from destruction. About the Author: Alex Kauffman is a software engineer for a US based Fortune 500 company. I have a strong love for IOS gaming, but I do have a very personal dislike for the way Apple controls apps on their mobile platforms. A lot of games have been updated to take advantage of the latest hardware features and IOS 6, but there are several games that don't support the new

Features Key:

Limited Collector's Edition:

Tiny Artifact's limited Collector's Edition of 13th Skull contains a dynamic plush character with a hand-painted portrait of the 13th Skull (or the Mystery Case Files detective known as M.C. Fleischer) on the side!

Everyone who orders the Collector's Edition will also get the digital desktop wallpapers that were released after the physical Collector's Edition launch.

The Collector's Edition also includes a pre-order bonus for our friends at Tiny Artifact, in case they don't have your physical Collector's Edition by the time you order.

Limited Costume Set:

Tiny Artifact's limited Costume Set includes a dynamic plush character and an exclusive desktop picture from the release of 13th Skull on the exclusive set. This set comes with a hand-painted portrait of the 13th Skull printed on a card inside.
