Graphics style was done for myself, not for my customers. You may find minor imperfections, but they're the price for having the opportunity to get a unique game that is totally unique in the App Store. It looks like a fake or photoshopped game just like any other game you can find in the App Store, but that's not the case. (on my blog, games, apps and reviews) I try to offer daily and weekly challenges, many of them based on competitions that i follow. Check out my blog: (on my twitter and facebook) Most of my games have some form of social component. I answer questions, show off new games and stream live gameplay, so keep on mind that what you're buying is not a bug, but a feature of these games and apps. Also, you can always ask questions. Contact is here: (on my audio files) My music is provided by me, not licensed or bought. When I make an app, I want it to match with the audio. If it sounds like there's a better version of the song, or like someone hit the good old mute button, that's not the case. --- ***IMPORTANT DETAILS*** • 2 Players local multiplayer support • Split screen is not supported • People never complained about any imperfections in the game. • This game is free • There is an option to purchase in-game items, like stm files, avatars and emotes This game collects data about your device and your use of the app. We use this data to evaluate and improve our products, to personalize the content and advertising we show you and to

What's new in Parkour Tag:

Coding includes marking tags for other players in the search function as well as editing a player's existing tags and making a personal tag template. Tag editing includes tagging players with specific usernames or accounts in an attempt to avoid putative tag-poaching. Also included is posting of you own custom tags. Tag messages are visible to all game viewers. You can create custom tags at Please tag non-tag game modes as well as tag game modes. If a tag does not work it will be removed, and no user will be able to use it unless it is replaced with a valid tag. If you are concerned about a tag that you think does not work, please notify the ARG administrators at arg.co.zw before posting the tag.
