## What's New in the?

ScreenHunter Pro is the most powerful screen capture tool on the market. It saves as many as 18 different types of images and generates customized video tutorials. New features: Added checkboxes to import video, audio, and photos and directly attach them to a capture without having to open any additional editor Added hotkeys for exporting videos in MP4 (H.264) and FLV formats Added video and audio options to the crop dialog Added a new option for creating custom screen capture tasks with windows and menus of your own Added an option to choose a pixel color from your screen and copy it to the clipboard Added an options dialog for configuring your captures Added a hotkey to copy a screen section on the clipboard to the active document Reduced file sizes by 20% through optimized use of compression Added a new video editor with a brand new interface Bugfixes Fixed "type" icon in the palette, menu, and context menu Fixed "position" dialog Fixed out of memory when importing video Fixed video project folder Fixed selection during drag and drop Fixed "Batch Export" task for Windows 8 Fixed hotkey configurable settings Good Night, Mr. Hecks For a much longer period of time, I've been wanting to do a Super Smash Bros. Brawl remix album. I am to blame for this almost un-ending ambition because my video game desire/maniacal for once has succeeded. Game wise, Brawl is a good game. I'm not going to get into that here. What is important for this article is that I've had the album in the back of my mind for a while now. I just never got round to doing anything about it! What I'm going to do now, is look at the songs from my personal game through a different lens. If you've noticed, I never really talk about the artists/bands directly. So, this time, I'm going to, and you'll notice it, that I am. So, how does it all work? So, the game is divided into 5/5 tracks (excluding the manga theme). I've written down the ones I find most essential

---

to the game. Super Smash Bros. is a game with over 80 playable characters. Each of these characters have about 10 tracks. So, this means 25 tracks of gameplay. Game time is about

---

## System Requirements For ScreenHunter Pro:

Minimum Specifications: Nvidia GTX 970 RAM 1 GB Pentium Core i5 3.3 GHz Minimum
