Q: Get the day number from text file c# I have a text file with dates in a similar format e.g. 18/12/2016 6:12:00 I want to load the dates into my database and want to know what day the date falls on, so the 18/12/2016 would be 18th dec 2016. How can I get the day of the month from a string with a format like this?
