## Moo0 ScreenShot Crack [Mac/Win]

★ Moo0 ScreenShot is a small and simple-to-use Windows tool that lets you easily take screenshots and save them to the image format of your choice, between BMP, JPG, GIF, PNG and ICO. ★ It comes bundled with a few useful options which are intuitive enough to be figured out by anyone, even those with little or no experience in image grabbing software. ★ Installing the app takes little time and minimal effort. However, users should be careful when going through the wizard steps, as Moo0 ScreenShot offers to download and install other programs (made by the same developer) which are not required for it to work properly. In addition, it is possible to make the app automatically run at system startup. ★ User-friendly interface The interface is clean and intuitive, represented by a simple window with a neatly organized structure. You can select the image format, make the frame stay on top of other windows, and change the saving directory if you're not satisfied with the default location. ★ Assign hotkeys for grabbing the screen Keyboard shortcuts are supported, meaning that you can point out hotkeys for capturing the entire screen or active window. Moreover, you can switch to another language for the UI. ★ Simple and reliable screenshot grabber To sum it up, Moo0 ScreenShot provides a simple solution to taking screenshots and saving them to various image formats, featuring support for hotkeys and multiple languages. It can be used by anyone, thanks to its intuitive structure and options.
