calls using a promotional. Yellow phone. Colors is known for their amazing album artwork. Earlier today, the band shared the poster for their upcoming album, "Avalanche". Check it out below. Colors has just announced that they'll be headlining the California Theater in Los Angeles, California on October 12th. Tickets go on sale on February 8th. You can check out the venue here. Tickets for the concert will go on sale on Friday. Before you purchase, make sure to look up Ticketmaster's fees and policies for indiegogo campaigns. For their first European headline tour, a handful of dates were announced last week. The band will be out on the road through the month of October with a leg that will go through Europe and the UK. Read about this tour here. Indians will no more get to vote in the

---

upcoming Telangana state election. The Election Commission of India has withdrawn voting rights to 16 million people in the state because they have been unable to procure voter identity cards. Telangana has the biggest voter list in the country. The number of people allowed to vote under the project is 13.7 million. The rights were revoked on the directions of the Supreme Court, which said that voting rights could not be withheld from anyone who had been a part of an earlier election. Earlier, while voting for the 2014 elections, an estimated 8.2 million out of the total 17 million Telugu voters were missing voter IDs and voter urns. Election Commission of India said that it was only

How to do Integration Testing using  
TestComplete and Selenium RC? I

have written selenium webdriver  
test cases in TestComplete and  
want to do the tests in

TestComplete. I also want to use  
TestComplete for complete

automation of the testing. Can  
anyone please suggest me some  
source to do this? Thank you in

advance. A: Just wanted to mention  
that you don't need TestComplete  
for Selenium RC testing.

TestComplete covers testing with  
other testing tools. For real testing  
and (semi)automation purposes,  
there are many excellent and great

---

tools out there. If you want to do Selenium RC testing with TestComplete, you just need to set up your TestComplete project to use Selenium RC. If you have any questions, just let me know. Q: How to print the output on shell when used in another script I am running a loop and i want to print it after i run it. I can do it if i use pipe and redirect the output to a log file but if i do it on shell, it still prints the result on shell not the output. A: You use the subprocess module to run commands as a subprocess

```
import subprocess
print(subprocess.check_output('echo "hello world"', shell=True))
```
