FlightFactor/VMax have updated their excellent Boeing 777 Series Pro and Extended versions to version 1.8. This update mostly revolves around the cockpit, not over the entire ship. There are a few small additions to the cockpit as well as upgrades to the aircraft. If you have VMax but just don't want to update it, you can download all of these packages directly from VMax.DotNet. This update follows the release released last month. Some of the most notable improvements include:
