Monogram Wizard Plus Full Version 20 Fix

I would like a word with someone about the professional version being sold again. It has the original logo> logo, no flashing lights, but it can be purchased here: www.monogramwizardplus.com it has been removed from www.monogram.com and has been sold on several sites including freenana.com so it is getting out there. It is a wonderful program but there was no way to buy unless from some site. The instructions were very limited. My daughter bought the program and is using it to make tshirts for kids. She has been using them for a couple of years now and we have made a bunch of shirts and are very pleased with how they turn out. I don't want to keep her from using them, but I did learn that she has to download them to her computer and the instructions that came with the program didn't allow that. The instructions on the products CDs were very limited. Could you please direct her on how to find them on her computer? Creating a load of designs at once using the Monogram Wizard Plus, in one simple easy step, is an incredibly time consuming task. With monogram wizard plus your monograms are generated one after another in the same order they are entered. Just as with any Windows application, you will also want to resize the symbols to a size you like before you begin to use it in the generation. You can even add/subtract text from the monogram to make it appear longer or shorter on your item. monogram wizard plus full version 20 You can generate monograms using a wide range of symbol characters and font. You can create several monograms or a single monogram as you wish. Once you have created your monogram, you can make it as small or as large as you like. You can also combine your monograms into one continuous design to give it a more unified look.
