The author of the Ludo Man game was an American who wished to build a game that is appealing. As such, he wanted to give the players a feeling of being a real Ludo master by changing the rules. That is why he added the point system to the Ludo game. Each time, a roll is made, you will get points that you can put to use. Ludo is a game of skill that is only considered for children. There was a time when Ludo was only played at home for children. The players rolling the dice first make a move. They must travel around the field and collect all the tokens by rolling. The players are a team. Before starting the game, you need to prepare the board. You have to add 11 blocks on it. All the tokens

have to be placed in the houses and parks. The house and the park should be on the opposite side of the board. Every time you start playing a game, you have to set the dice back to the box. And after rolling the dice, you have to move your tokens one by one. The same rules should be applied to other players. At the end of the round, the players should follow the same rules to play another game. 5ec8ef588b
