This license gives you the freedom to open-source these projects, even for commercial uses. We support Open Source by supplying under an Open Source license all the code necessary to integrate with external tools such as ANI Studio, the RV6 and RV (Classic) renderers. This is just another example of Autodesk helping to advance the industry with the Open Exchange. As mentioned above, we will continue to release code in the Open Exchange to help creative professionals expand their Open Project Ecosystems. Open Source allows for maximum collaboration while ensuring maximum control over what we do.
