From the section Rugby Union No date for Bordeaux international's return after 'leukaemia scare' Bordeaux winger Jacob Stanlake has returned to full training after being sidelined since mid-January. The 26-year-old, who has 18 caps for England, suffered a blood infection following a knee injury in training. "I'm really happy and my legs are much better," said Stanlake, who joined the club this summer. "I'm back to full fitness now and am fully focused on this weekend's game against Cardiff. "I had an operation on my knee and have been unable to train since. The infection was coming from my knee and I had to have a stem-cell transplant to clear the infection." Bordeaux are on an upturn in results after an indifferent start to the season which saw them relegated from last season's top tier, Top 14. Bordeaux have won four games out of five in the Top 14 since the start of January and their impressive form has prompted the French club to offer Stanlake a new three-year deal. His absence has been a key factor in Bordeaux's improvement and team-mate Alex Domont was given a standing ovation when he was introduced against Clermont earlier this month. "Jacob is a great guy, he has been missed and I'm glad he is back in full training now," said Domont. "I really missed his energy on the pitch and his friendship. We have had a lot of time off this winter but we are all fully committed to the club." Bordeaux, who last season lost only twice in 38 league games, have not been beaten in the Top 14 since their opening day defeat by Racing 92. This season, they are unbeaten in eight games and have won five of their last six. Bordeaux will be without captain Teddy Iribaren (broken arm)
