PC DJ is what you've been dreaming of! PC DJ is a complete DMC for your PC. It has the next generation of DJing features such as cross-fading, beat matching and beatloop. Plus there are several other features that make PC DJ the best free DJ software. Let's start: You are using a DMC for your PC. But your DMC has a serious design flaw - it's not intuitive at all! In order to perform a well thought-out DJ set, you need to learn everything you can about your DMC - things like how to turn down the volume, which mode to select, how to load a song, how to use looping and beatmatching, how to change the music's speed, how to adjust the tempo, and the list goes on and on... It's a serious obstacle for you to get to that point, where you could really use your DMC to its full potential. But PC DJ was made for you, for that roadblock! Here you are presented with a friendly user interface that allows you to quickly reach the functions you need to perform a well thought-out DJ set. It also comes with a user friendly database that makes it easy for you to discover all your songs, and what mode to use to load them into the deck. And that is just the start of the good news! PC DJ comes with all the most used functions you need to perform a DJ set. You have access to a collection of tools for setting up a song, like cross-fading, beatmatching, beatlooping, CD-jukebox mode, input mode, scratch mode, tempo adjustment, and output mode. You can use PC DJ's cross-fading and beatlooping feature to perfectly match the beats of your song, and you have multiple options to choose from: beatmatching or beatloop. PC DJ is even equipped with an exclusive phase correct function that can be used for scratching. When you're done with your DJ set, you can also save it for later, and this is done very easily. Simply start PC DJ, save your DJ session to a file and you're done. That's just the beginning of the good news! Next to all that you also get access to all the functions you need to perform a DJ set! PC DJ comes with a vast amount of tools to help you perform your first DJ set or perfect your skills. You have an input mode selector that lets you
