Gizmo: Chemistry Student Question Answers.In what may be the first recorded case of what is known in the English language as "sloshing," a human hand has reportedly been pulled out of a frozen lake in Quebec. An unnamed man in the town of Ormstown was fishing at a popular local ice rink on Tuesday when he decided to try to retrieve a bag full of his other items that had fallen into the ice, CBC News reports. After a close call, the man reportedly managed to pull the bag out of the ice with his bare hands and got back to the rink. "The woman who discovered it was crying and wailing," the regional newspaper La Presse reports. "She went to bring the bag back. She was so happy." The little white hand, bound with blue twine, was actually found several days ago by a young boy who was ice fishing at the same location. The hand was taken to the local hospital, where a physician removed the hand and told the boy that it was "quite cold," La Presse reports. The hand later showed signs of frostbite, but an X-ray showed no fractures, the paper reported. Another fish caught at the same spot five days later was
